Dear Human Resource Manager

I'm Teng-Yuan Liu, call me Shuk Liu , concentrated in software engineer, experienced in web app, game development, analysis, infrastructures, and comfortable with cutting-edge technologies. Comfortable with cutting-edge technologies.

My background include game company and developer platform service company, and some web developer. In the game company , it's totally required highly available(HA) and quick response to keep services always online. Because , service down 1 minutes will lose thousands of money. I also do analysis in this one. In the platform service company, I deal with quantities of services design, how to deploy and scale with apps , avoid HotSpot issue , and keep service robust.

I learn new as needed, study what i don't know as interested. I definitely can make positive contribution in this position, please take a look of my CV, If I'm qualified for you, I look forward a discuss for how i can contribute the company. Thanks for your time.

Sincerely

Liu, Teng-Yuan
